I was listening to a speaker talk about the vietnam pow's tapcode. It's both simple and sophisticated. Check it out.

First, you drop the letter K. It's redundant and that makes a nice simple 25 letters to work with. then you set up a matrix, to help your memory. the matrix goes like this.

1 2 3 4 5
-+---+---+---+---+---+
1 A B C D E
-+---+---+---+---+---+
2 F G H I J	?
-+---+---+---+---+---+									
3 L M N O P									
-+---+---+---+---+---+									
4 Q R S T U									
-+---+---+---+---+---+									
5 V W X Y Z									
-+---+---+---+---+---+									

It can also work as a visual. Touch left elbow, right elbow, left knee, right knee, rub head. Etc.
